PROJECTS

MAKING OF AEROPHILIA 2022 WEBSITE

1. Aerophilia Website was designed to advertise the Annual college fest of Sahyadri and to monitor registrations for each event.
2. Worked for making the UI and the Frontend of the Entire website.

MAKING OF JMV IMPEX WEBSITE

1. JMV Impex was a paid Full Stack project done for advertising of a mechanical parts delivery company named JMV Impex, Mumbai.
2. Served as the UI/UX designer for the making of the whole website.
3. We comprised a team of two individuals tasked with constructing this website.
4. The website was built with MERN Stack Technology.
5. Here's the Link of the delivered website : https://jmvimpex.in

AMBULANCE R

1. This Project was built for my individual learning purpose.
2. It is a Full Stack Website which sends the user location to the nearest Med services centre by just the click of a button.
3. This project has helped me gain proficiency in Building databases, implementing backend, using SMS APIs and Google APIs.
